

DIY WEDDING FLOWER WORKSHOP

what will I learn?

We are delighted to be collaborating with Millie Richardson Flowers to host DIY Wedding Flower Workshops. These one-day workshops are perfect if you want to bring the personal touch to your wedding day or if you are simply trying to save some pennies from your budget. Or maybe you just have a love for flowers!

In a day you will learn how to make your own hand-tie bridal bouquet, plus a variety of beautiful table arrangements and more intricate pieces such as button-holes and flower-crowns. Millie will cover the basics of sourcing and preparing the flowers and how best to choose stems and foliage that complement one another, before arranging them in a way that shows off all of their natural beauty. We will also experiment with shape and colour as well as different textures.

Millie runs her artisanal flower studio locally in the Cotswolds and specialises in floral design which is inspired by the changing seasons and local surrounds. Her style is very natural and romantic, and she aims to offer an alternative to the traditional methods of flower arranging.
